

The Community Surface Dynamics Modeling System

develops, integrates, archives & disseminates software to define the earth's surface dynamics

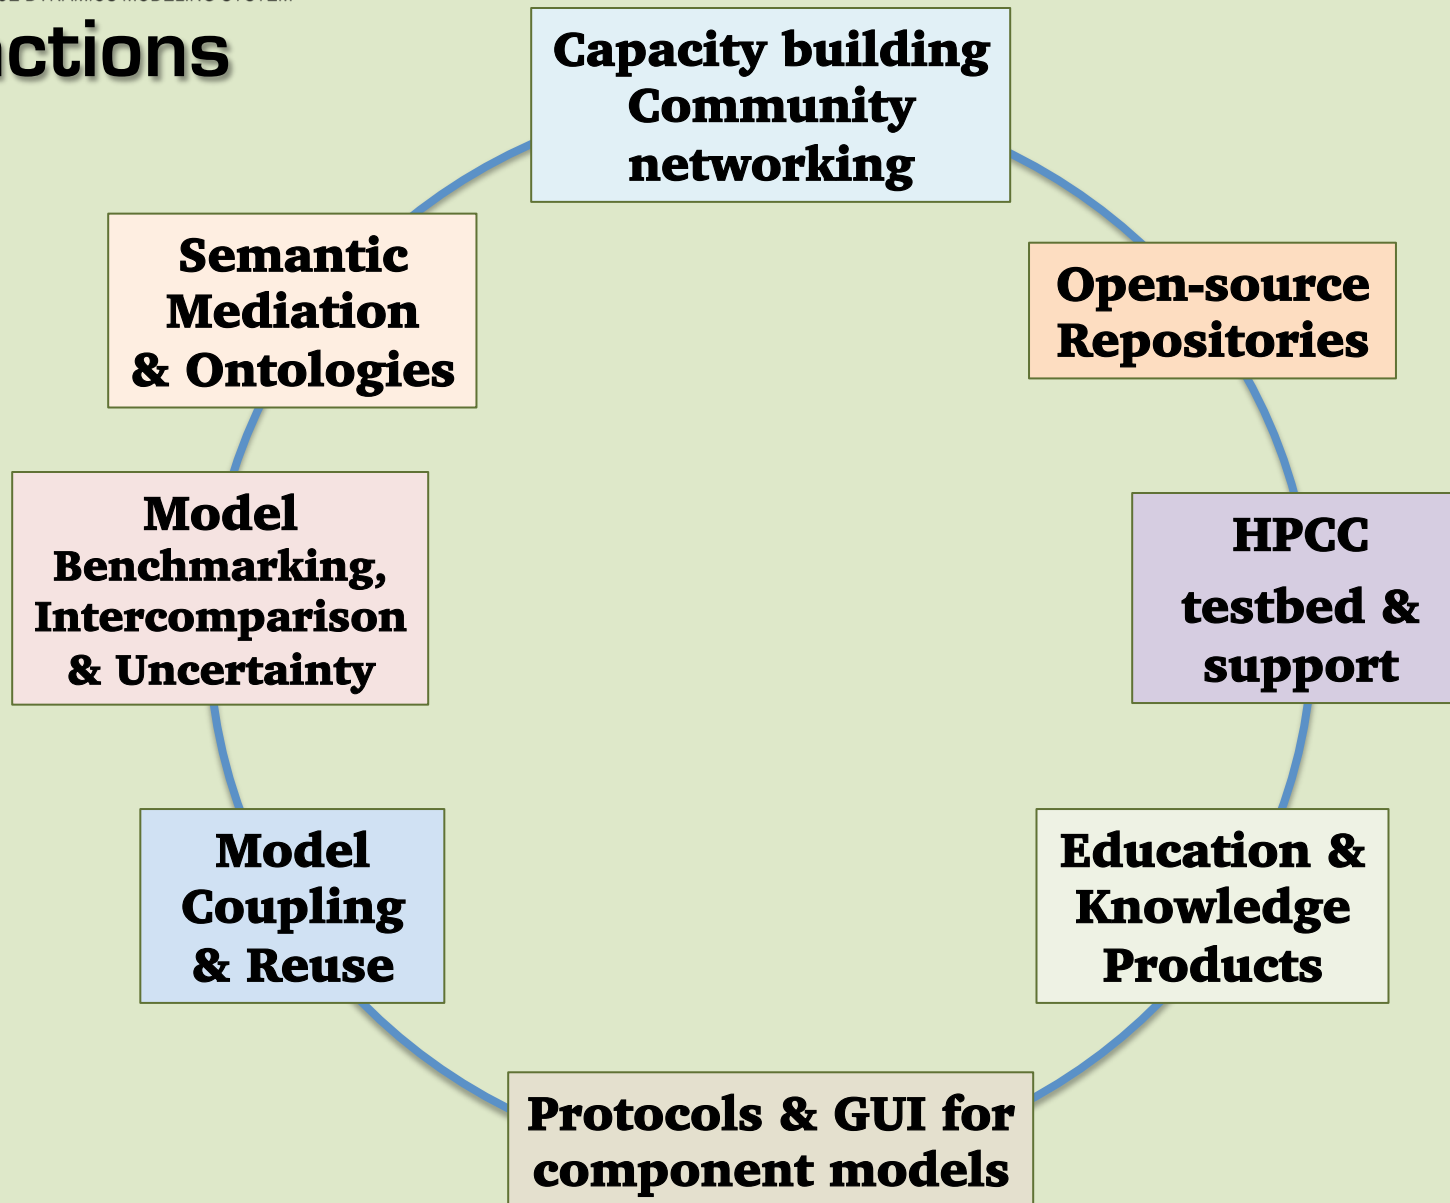

James Syvitski, CSDMS Executive Director

CSDMS

COMMUNITY SURFACE DYNAMICS MODELING SYSTEM

Functions

Functions

**Capacity building
Community
networking**

- * 150 new members
- * New (ISEM) Ecosystem Dynamics FRG
- * 15 new instructional clinics

Open-source
Repositories

- * EuroCSDMS to be at DELTARES
- * New Chairs & Co-Chairs:
 - C. Sherwood- Interagency WG

- R. Hood- Chesapeake FRG
- Lejo Flores- Critical Z FRG
- Mark Rounsevell- HD FRG
- Brian Fath- Ecosystems FRG

Protocols & GUI for
component models

Working Groups Focus Research Groups

Terrestrial	610	Hydrology	470
Coastal	480	Carbonate	80
Marine	310	Geodynamics	80
EKT	190	Chesapeake	60
Cyber	185	Critical Zone	50
		Anthropocene	40
		Ecodynamics	20

Initiatives

Coastal Vulnerability	40
Continental Margins	25

Functions

OceanWaves

Semantic
Mediation
& Ontologies

* 13 new terrestrial models
& tools

LANDLAB

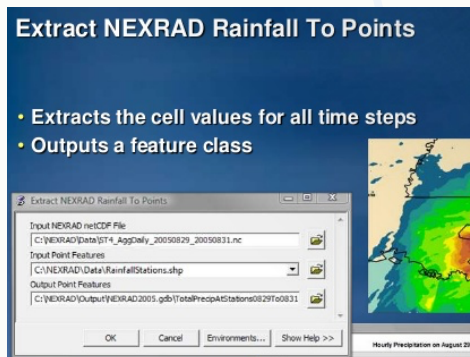

Model
Benchmarking,
Intercomparison
& Uncertainty

* 5 new coastal models
* 7 new marine models
* 5 new hydrology models
& tools

* 240 models & tools in
total

* 15,000 downloads x2

* Downloads migrated to
Github

Protocols & GUI for
component models
WETLAND3P

Functions

- *Beach* our 8TFlop/s cluster is relocated to CU's Research Park
- Average CPU usage by CSDMS members ~50% last year
- *Janus* CU's 150TFlop/s cluster remains available for CSDMS members use

Protocols & GUI for
component models

Functions

- ✧ Student labs (16)
- ✧ Modeling short courses (8)
- ✧ Lectures (300)
- ✧ Textbooks (5)
- ✧ Global domain datasets (73)
- ✧ Special Issue on model uncertainty in review at C&G (No. 4)
- ✧ Instructional Clinics & Short Courses (72)
- ✧ Science on a Sphere (8 datasets and labs)
- ✧ Over 25,000,000 web page views

**Protocols & GUI for
component models**

- Capacity building
Community
Accessibility
Open source
Repositories
- ✦ Simplified the use of CSDMS's *WMT*
 - ✦ *BMI* Builder in the testing phase
 - ✦ *BMI* Importer for the CSDMS framework
 - ✦ Software Stack Installer for Mac OS & Linux
e.g. *Yellowstone & Janus*

Functions

**Semantic
Mediation
& Ontologies**

**Model
Benchmarking,
Intercomparison
& Uncertainty**

**Capacity building
Community
networking**

- ✧ 2600 CSDMS *Standard Names* (V. 0.8.1) with refined rules
- ✧ Prototype interface for running **DAKOTA** in WMT
- ✧ Python wrappers for **DAKOTA**
- ✧ **DAKOTA** application completed: parameter studies and uncertainty quantification (e.g. Delft3D & HydroTrend)

A Multilevel Parallel Object-Oriented Framework for:

- Design Optimization
- Parameter Estimation
- Uncertainty Quantification
- Sensitivity Analysis

2015 Annual Meeting Agenda

Tuesday	Wednesday	Thursday	Friday
Welcome talks (3)	Keynotes (4)	Keynotes (2)	ExCom Meeting
Keynotes (2)	Group Business Meetings (5)	Clinics (3)	SC Meeting
Discussions (5) <i>What do modelers want from the data community?</i>	Lunch	Lunch	Lunch
Lunch	Clinics (3)	Keynotes (3)	
Clinics (4)		Group Business Meetings (5)	
Keynotes (2)	Posters	Reports & Wrap-Up (2)	
Posters	Banquet	Departures	

**2015 Annual Meeting Theme:
Data meet Models, Models meet Data**

- 1) **Surface Dynamics Modeling** — posters & presentations

- 2) **Modeling Clinics:** *WMT & Dakota, Hydro Data, OpenFOAM, CHILD, CEM, BMI, Integrated Modeling, CSDMS EKT, Landlab, CUHASI WDC*

- 3) **Group Discussion:** *What do modelers want from the data community?*

- 4) **CSDMS Group Business Meetings:** Goals and Activities
 - i) increasing the number of BMI components,
 - ii) advancing medium term and long term goals.

- 5) **Fostering of a Community**— Honors, Awards, and fun!

2015 CSDMS Program Director's Award

Dr. Bilal Haq, former Director for Marine Geosciences, NSF

- Ph.D. (Pakistan) and D.Sc. (U Stockholm)
- Employment, U Vienna, U Stockholm, WHOI/MIT, Exxon, U Paris, White House, World Bank
- Authored or co-authored 150 papers and books —several are *citation classics*, the *most cited in geosciences*
- Francis Shepard Medal (SEPM), NSF's Antarctic Medal
- GSA Fellow; AAAS Fellow
- AGU's Ocean Science Award, Killam Chair
- Honorary D.Sc. from the Sorbonne
- A fossil *Genus* and a fossil *species* named after him

Merit — *For Bilal's sustained push to get the sedimentology and stratigraphy community to become more quantitative, better integrated and organized, and to collectively speak with a clearer voice in addressing the needs of the nation. This includes early recognition and support of CSDMS in addressing these needs.*

2015 CSDMS Life-time achievement Award

Prof Chris Paola, NCED Co-Director

- B.Sc. Lehigh U, M.Sc. U Reading, D.Sc. MIT/WHOI
- Geological Society of London's Charles Lyell medal in 2011
- SEPM's Laurence L. Sloss Award in 2014
- Awards for outstanding advising, instructing,
- Authored or co-authored 150 papers and books — *several outstanding journal papers*
- GSA Fellow, AGU Fellow

Citation — As a pioneer and world leader on the subject of quantitative dynamic stratigraphy, and for studies on basin filling and controls on physical stratigraphy, braided streams, particle fractionation in depositional systems, bedform dynamics and self-organization in landscape evolution.
