

JOB ANNOUNCEMENT – May 5, 2017

Hydrogeologist/Hydrologist (Sonoma County, California)

OEI is a small professional firm specializing in applied hydrology. We work primarily in northern California on interdisciplinary projects involving hydrogeology, hydrology and hydraulics and geomorphology (www.oe-i.com). We are seeking an entry-level to mid-level earth scientist with demonstrable technical skills from prior work experience or focused internship to assist senior staff with site-specific hydrogeologic investigations, watershed scale hydrologic modeling, and watershed/stream restoration. The successful applicant is expected to quickly assume responsibility for preparing site-scale hydrogeologic and water balance analyses and will have opportunities to collaborate on a range of other projects.

Education: BS (BA) or MS in Earth Sciences or Environmental Engineering

Critical skills: ARC-GIS, Excel, technical writing, willingness and ability to learn new technical skills

Critical experience: Hydrologic data collection and analysis, independent field work in wildland environments

Desirable skills: Hydrologic and hydraulic modeling, groundwater modeling, working with LiDAR data sets, field instrumentation and field data collection, environmental engineering, total station topographic surveying

Desirable experience: California geology, relevant employment history, natural resources management, environmental regulation, anadromous fish habitat analysis and restoration, TMDLs

AVAILABILITY & LOCATION

OEI is in Healdsburg, northern Sonoma County, 15 minutes north of Santa Rosa and 60 minutes north of the Golden Gate Bridge.

We intend to fill the position in June 2017.

Salary commensurate with experience and qualifications.

Benefits include health insurance and retirement plan 401(k).

Potential flexibility in work week.

HOW TO APPLY

Please send cover letter indicating contact information, interest in the position, primary qualifications and desired salary range. Include resume, one example of a GIS work product you prepared (GIS or Acrobat), and one example of your technical writing (Acrobat or MS Word). References are not required for the initial application, but will be required of candidates selected for interview.

E-mail application materials to: matto@oe-i.com
