

***The Department of Civil and Environmental Engineering (CEE) at the University of Houston*** invites applications for a tenured/tenure-track faculty position for Fall 2015. The appointment is anticipated at the rank of Assistant or Associate Professor. Areas of interest include fluid mechanics, hydrodynamics, and hydrological science and engineering with applications to energy, natural disasters, and climate change.

Applicants must have an earned a Ph.D. degree In Civil/Environmental Engineering or a closely related field. The successful candidate should demonstrate a strong record of scholarship and a commitment to teaching at undergraduate and graduate levels. The candidate is expected to develop a nationally recognized research program. Preference will be given to those that can cross disciplinary boundaries.

The University of Houston (UH) is a public tier one research institution with more than 40,000 students. UH is a recipient of the National Science Foundation ADVANCE Institutional Transformation Award to increase the participation of women in academic science and engineering careers. The CEE department has 22 full-time faculty members with more than 300 undergraduate and 200 graduate students.

Houston is considered the energy capital of the world, is home to the Texas Medical Center (one of the largest medical centers in the world) and the NASA Johnson Space Center.

Applications received before February 1, 2015 will receive full consideration, but review will continue until the position is filled. The applicant should upload a cover letter, CV, statement of research, statement of teaching interests, and the names/ contact information of at least four references to <http://jobs.uh.edu/postings/23373>.

The University of Houston is an Equal Opportunity/Affirmative Action employer. Minorities, women, veterans, and persons with disabilities are encouraged to apply.
