

PhD opportunity – Montclair State University

Dear Colleagues,

I welcome student applications for our Earth and Environmental Science doctoral program at Montclair State University. The project will primarily involve the development of numerical models for the evolution of coastal environments in the NY-NJ region, as well as opportunities for field data collection and analysis. The student will be part of the Megalopolitan Coastal Transformation Hub ([MACH](#)), under the [Coastlines and People Program](#).

Applications are due October 31, 2022, for Spring 2023 admission and March 1, 2023, for Fall 2023 admission. To apply informally, send me a letter of interest and curriculum vitae. Detailed program information and application procedure can be obtained from the [PhD program website](#).

Also, tune in on Sunday, October 23rd for the [Virtual Fall 2022 Graduate School Open House!](#)

Feel free to contact me with any questions about the research project or the application process.

Jorge Lorenzo-Trueba
